Skills

- HTML5 & CSS3 – Strong foundation in web structure and styling
- JavaScript (ES6+) – Proficient in writing clean, modern JavaScript
- React.js – Building interactive and dynamic user interfaces
- Next.js – Experience with server-side rendering and routing
- Tailwind CSS – Fast and responsive UI design using utility-first CSS
- Frontend Development – Focused on responsive layouts and user-friendly design
- Node.js (Learning) – Currently exploring backend development with Node.js

Objective

Aspiring Web Developer with a strong foundation in HTML, CSS, JavaScript, React, and Next.js, passionate about building responsive, user-friendly web applications. Currently expanding backend skills with Node.js to grow as a full-stack developer. Eager to contribute to dynamic development teams and create impactful digital experiences.

Projects

Firebase Contact App
https://github.com/HanshikaSahu/Firebase-App.git

This is a responsive real-time web application built using React. The app leverages Firebase for backend services such as authentication, real-time database updates, or storage (depending on implementation), and is structured using Vite for a fast and modern development workflow. The design is responsive, ensuring usability across devices.

Education

KIIT UNIVERSITY
Btech CSE
2023-27 — **8.7**

Achievements & Awards

Member, CPC (Cyber Peace Corps) – Active contributor in coding sessions, peer learning, and club activities

Member, CyberVault (Cybersecurity Society) – Engaged in discussions, workshops, and awareness programs on cybersecurity

Hackathon Enthusiast – Frequently participates in college-level and external hackathons, collaborating on real-world tech solutions and improving problem-solving skills
